# 1 Global Talent Solutions

We connect international businesses with highly skilled South African professionals **across any role**.

Acting as the legal employer in South Africa, MOC manages all local employment responsibilities: including HR support, payroll, compliance, and onboarding.

We provide the required resources to guarantee sustainable value contribution.

We don't just place talent; we train, support, and ensure success in the role, acting as a satellite branch and cultural bridge between your business and your team.

## Access to affordable, top-tier talent

We connect you with highly skilled SA professionals, performing at a lower cost.

## No need to set up a local entity

We act as the legal employer – removing the need for your business to establish a South African presence.

## Fast, seamless onboarding

We manage all hiring logistics – from documentation and contracts to induction and equipment handover – so your new team member can start in days, not weeks.

## Less legal & operational risk

We manage day-to-day employee needs like leave, benefits, and performance tracking — so you stay focused on business growth, not HR admin.

## Ongoing HR and performance support

Our team of experts handles employment liabilities, dispute management, and legal processes — giving you peace of mind.

## Full legal and HR compliance

Our service ensures total compliance with SA labor law, including payroll, tax, statutory benefits, and employment regulations.

# 2 Data Analysis

In today's fast-paced business environment, data is more than a byproduct, it's a strategic asset.

We empower companies to unlock the full value of their data without the cost or complexity of building an in-house analytics team. We help you build data into business intelligence.

## Our data analysis services:

- **Real-time analytics & alerts:** Monitor key operations in the moment with live data tracking, alerting, and actionable insights.
- **Reporting & dashboards:** Create scalable, insightful reports and dashboards using Power BI.
- **Managed insights:** Translate data into decisions with recurring or focused analytics support.
- **Data Warehousing solution (Add-On):** Optional data warehouse support, to improve data structure, history, and reporting efficiency.

### Increased efficiency and reduced manual work

Automated data collection, reporting, and insights free up your team's time for high-value tasks.

### Better forecasting, less guesswork

Data-backed projections for sales, demand, and operations help you plan more accurately and reduce uncertainty.

### Faster, smarter decisions

Real-time dashboards and clear reporting ensure leadership can respond to issues and opportunities without delay.

### Data-driven teams

Everyone, from executives to frontline teams, has access to the right data, promoting transparency, alignment, and accountability.

### Lower cost, higher impact

Avoid the cost of hiring in-house analysts and building BI infrastructure, with a fully managed, expert solution that scales with your needs.

### Strengthened market competitiveness

Spot trends early and uncover opportunities ahead of your competitors, enabling proactive strategy, not reactive fixes.

# 3 Digital Marketing

A strong digital marketing strategy is the backbone of any successful online presence. We design tailored strategies that align with your business goals, ensuring you reach the right audience with the right message at the right time.

## Our digital marketing services:

- **Social Media Management:** Grow engagement and convert audiences into customers.
- **Search Engine Optimisation:** Help customers find you when they're searching online.
- **Paid Advertising:** Targeted ads on platforms like Google & LinkedIn for measurable ROI.
- **Email Automation:** Nurture leads and move prospects through your funnel.
- **Brand Identity Development:** Consistent and memorable brand presence across platforms.
- **Content Marketing:** Authority-building content that attracts customers.
- **UX/UI Design:** User-focused websites and apps that drive action.
- **Graphic Design:** Professional visuals tailored to your brand and goals.

### Comprehensive Marketing Services

We manage the full marketing function so every channel works together instead of operating in silos.

### Scalable Marketing Function

Your marketing output can grow as your business grows without the need to hire or manage additional internal staff.

### Measurable Performance

Every activity is tracked and reported so you can clearly see what is working, what needs improvement, and where budget delivers the most value.

### Stronger Brand Credibility

We create a professional and consistent presence across platforms so customers trust you before the first conversation even happens.

### Higher Conversion Rates

We optimize user journeys, messaging, and calls-to-action to turn website visitors and social audiences into real customers.

### Predictable Lead Flow

We build structured campaigns and funnels that consistently generate inbound enquiries instead of relying on occasional demand spikes.

## Challenge

A U.S.-based logistics company faced exponential growth and needed to reduce overhead costs while filling critical talent gaps across departments.

## Solution

MOC provided highly skilled South African professionals in Legal, Finance, Business Intelligence, Marketing, and IT support, ensuring efficiency, compliance, and scalability without increasing fixed costs.

## Key Outcomes

- \$26,000 monthly savings on employee costs (8 employees placed)
- Up to 45% lower overhead vs. U.S. hiring benchmarks
- Faster turnaround times and improved efficiency
- Scalable, cost-effective talent model supporting long-term growth

## Approach

- Targeted recruitment campaigns
- Pre-screened South African talent pool
- Compliance with U.S. & South African labor standards
- Ongoing performance reviews to track ROI

## Timeline

Nov 2022 – Current.

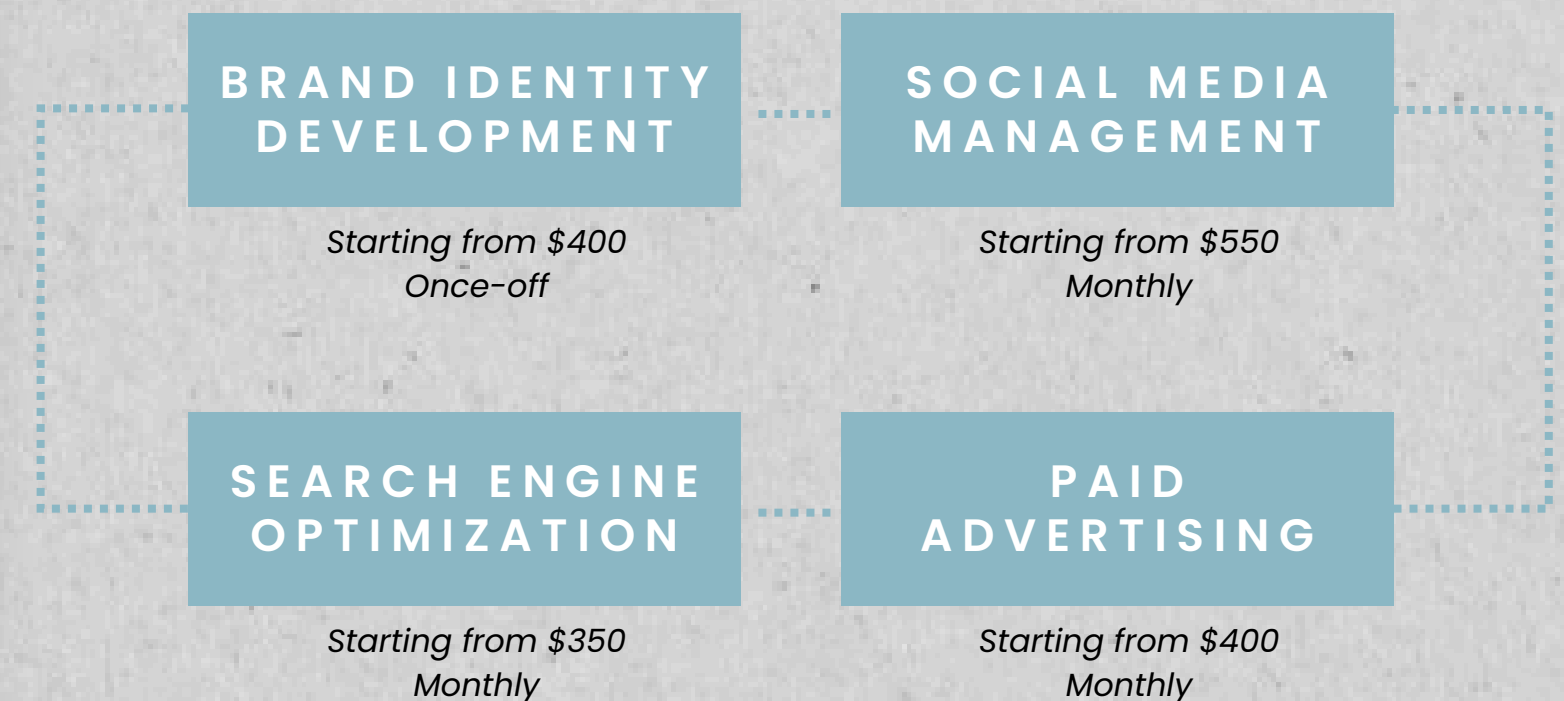

Consistent savings and sustained operational growth.

# 1 Global Talent Solutions

- South African teams provide 60–70% savings versus UK/Australia, while maintaining quality and cultural compatibility superior to many emerging markets.
- The workforce is highly educated, with strong representation in finance, legal services, technology, logistics, and creative industries.
- We conduct a detailed market analysis to determine what a similar professional would cost in your market.
- We create a custom pricing package based on the role, candidate expertise, and scope of work.

# 2 Professional Consulting

- Digital Marketing and Data Analysis packages available in our individual service brochures.
- Contact our team for more details regarding solutions and pricing.

# What our clients say

“

Working with Magnum Opus has been an absolute game-changer for our business at AWA. Their dedication to understanding our target customer is unparalleled, and it's evident in the remarkable results we've seen. What truly sets them apart is their brilliant creativity and exceptional communication with our AWA team. Magnum Opus doesn't just deliver marketing solutions; they deliver tailored experiences that resonate with our audience. We couldn't be happier with their services, and we look forward to continued success together.

**Jesse Maugle**

*Vice President - AWA*

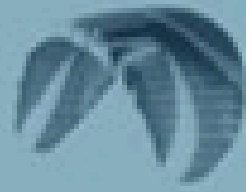

“

Magnum Opus Consultants has been an invaluable partner for our Food Safety Agency. Their marketing services have truly elevated our presence in the industry. With their expertise, we've seen increased engagement, better brand recognition, and a significant boost in our online presence. Their tailored strategies and creative campaigns have not only improved our outreach but also helped us communicate our brand effectively. We couldn't be more pleased with their results-driven approach and dedication to our success. Magnum Opus Consultants is undoubtedly the go-to choose for anyone looking to enhance their marketing efforts in the food safety sector.

**Louis Visagie**

*CEO - Food Safety Agency*
